

DEPARTMENT OF THE ARMY SUPPLY BULLETIN

Army Medical Department Supply Information

Headquarters, Department of the Army, Washington, DC 20310-2300

20 March 2003

Effective until rescinded or superseded

DISTRIBUTION STATEMENT A: Approval for public release; distribution is unlimited

Printing of this information does not constitute endorsement of the product, manufacturer, or the use of any related item thereof by the U. S. Army.

REPORTING ERRORS AND RECOMMENDING IMPROVEMENTS

You can improve this publication. If you find any mistakes, or you know a way to improve it, please let us know. Mail your letter or DA Form 2028 (Recommended Changes to Publications and Blank Forms) directly to the U. S. Army Medical Materiel Agency, ATTN: MCMR-MMB-A, Fort Detrick, MD 21702-5001.

SPECIAL NOTICE

THIS SUPPLY BULLETIN IS DEDICATED ENTIRELY TO THE
BUSINESS OPERATIONS DIRECTORATE, US ARMY MEDICAL MATERIEL AGENCY
FOR THE DEPARTMENT OF DEFENSE

OVERVIEW OF THE BUSINESS OPERATIONS

a. The U. S. Army Medical Materiel Agency (USAMMA), Business Operations Directorate (BOD), provides customer assistance/support to the USAMMA's external customers as well as internal resources management, information management/information technology, and administrative support.

b. A brief description of BOD functions and duties are given below. Defined within this issue of the Supply Bulletin are specific functions relative to the Customer Relationship Management (CRM) Division.

1. **Office of the Director (MCMR-MMB)**

The MMB Director is accountable to the USAMMA Commander for the centralized services and shared resources that are essential for successful prosecution of the agency's mission. The Director is accountable to the Business Operations Directorate for strategic planning and coordination of the resources and activities that enable the Directorate to provide the highest quality of support to the agency.

2. **Administrative Support Office (MCMR-MMB-A)**

The Administrative Support Office manages the general administrative affairs of the USAMMA. A list of the many responsibilities of the Administrative Support Office would include facility management, mail, protocol, government travel credit card administration, OCONUS travel management, non-technical publications, records management and internal logistics support.

3. **Customer Relationship Management Division (MCMR-MMB-R)**

The primary focus of CRM is providing customer service, support, and satisfying information requirements. The CRM also performs information gathering, consolidation, and dissemination; quality control/quality assurance oversight; corporate communication; requisition management; customer awareness; publication contribution; medical materiel complaint process coordination; wholesale/retail level collaboration; controlled substance receipt coordination; excess materiel management; and tri-service executive agency functions.

4. **Resources Management Division (MCMR-MMB-C)**

The Resources Management Division consists of a Budget Branch, Managerial Accounting Branch, and a Personnel and Manpower Branch. The primary focus is to acquire and manage human and financial resources to enable the logistician to maximize the resources for evolving readiness requirements.

5. **Information Management/Information Technology Division (MCMR-MMB-I)**

The Information Management/Information Technology Division assures continuity of operations and sustainment through technology and the management of information.

The IM/IT manages systems operations and network/communications requirements (including security awareness) for USAMMA'S business processing systems.

c. For additional information contact:

USAMMA
ATTN: MCMR-MMB-R
Fort Detrick MD 21702-5001
Telephone DSN 343-4055/4380; commercial 301-619-4055/4380

SECTION 1. CUSTOMER RELATIONSHIP MANAGEMENT DIVISION

1-1. CUSTOMER RELATIONSHIP MANAGEMENT

a. The Customer Relationship Management Division (MMB-R) is a complex and multifaceted organization. Primarily focused on our customers and fulfilling information requirements, the CRM also manages some critical programs that support force protection and readiness.

The MMB-R:

- Executes responsibilities for DOD-MMQC and Army Medical Materiel Information (MMI) message preparation and dissemination;
- Coordinates Army's medical materiel complaint submissions;
- Disseminates information, collects requirements, and manages requisitions for the Army's annual influenza vaccine program;
- Manages the Army's Medical Materiel Excess Program;
- Promotes customer awareness of USAMMA's products and services;
- Provides customer service and support; and
- Performs tri-service executive agency functions.

b. Questions regarding the preceding areas may be directed to:

USAMMA
Customer Relationship Management Division
ATTN: MCMR-MMB-R
1423 Sultan Drive, Suite 100
Fort Detrick MD 21702-5001
DSN 343-343-4055/4380 or Commercial (301) 619-4055/4380

1-2. ADDRESS INDICATOR GROUP (AIG) LISTINGS

a. The AIG listings for 7485, 7486, 7487, and 7488 are shown in Appendix A and include Continental United States (CONUS) and Outside Continental United States (OCONUS) activities as well as addressees for ACTION and INFORMATION.

b. To ensure continuous receipt of the DOD-MMQC message series, each AIG is responsible for updating, deleting, initiating, or making changes to any part of the address. Changes are sent to:

USAMMA
ATTN: MCMR-MMB-R
1423 Sultan Drive, Suite 100
Fort Detrick MD 21702-5001
Telefax number DSN 343-4055/4380 or 301-619-4055/4380

c. Messages sent to the AIG addressees require acknowledgment and action. These messages include suspensions/recalls/potency-dated items, etc. It is imperative that attention be given to changes in any part of the address and that your Message Center be notified immediately.

d. The Defense Message System (DMS) is a message system utilizing electronic mail and is intended to replace the current Autodin Message System. It is vital that the USAMMA receive DMS addresses assigned to activities that are required to receive DOD-MMQC, Army MMI, and DOD/FDA SLEP messages. DMS addresses may be obtained from individual activity Directorate of Information Management (DOIM) points of contact. Please report individual activity DMS addresses along with activity name and point of contact (POC) telephone number (both DSN and Comm) to the MMB-R at telefax number 301-619-2938.

1-3. QUALITY CONTROL (QC) MESSAGES

a. The DOD-MMQC message is a Tri-Service centralized reporting system developed to maintain a readiness posture by providing our MTOE activities, ships, and other deployed field units the same quality assurance (QA) information afforded fixed/TDA facilities. The DOD-MMQC process is an Integrated Medical Logistics Group initiative, designed to simultaneously disseminate QA information and rapidly notify hospitals, clinics, and medical units aboard ships or on foreign soil of potentially hazardous medical materiel. These messages contain urgent QA data emanating from pharmaceutical and/or medical device and equipment manufacturers regarding their products.

b. Once received at the DSCP, research is conducted to equate the product with NSNs. This information is transmitted to USAMMA and incorporated into the DOD-MMQC message format that contains all Service-specific requirements, POC information for return and/or disposition of product, and any other product related information. The program's primary purpose is to aid the Service-specific logisticians, supply managers, and/or pharmacists in assuring that the proper suspension of use, handling, and return of recalled product is accomplished to protect patient safety.

c. The recalls are classified as follows:

(1) Class I: A situation in which there is a reasonable probability that use of, or exposure to, a dangerous product will cause serious adverse health consequences or death.

(2) Class II: A situation in which the use of, or exposure to, a dangerous product may cause adverse health consequences.

(3) Class III: A situation in which the use of, or exposure to, a dangerous product is not likely to cause adverse health consequences.

d. The MMB-R also disseminates Army Medical Materiel Information (MMI) messages that contain information specific to the Army only.

e. These messages are available via three media:

- (1) the Communication Center (hard copy),
- (2) the World Wide Web (WWW) [available on the USAMMA Home Page at <http://www.usamma.army.mil>. Select "DOD-MMQC Messages" on the sidebar and follow appropriate prompts.
- (3) Electronic Mail

Register to receive QC Messages via E-mail by subscribing on USAMMA's website (address as above) under the "**What's New**" tab on the home page; select "**subscribe**".

1-4. OPEN SUSPENSION REPORT

The Open Suspension Report is a recapitulation of Open Suspension Items and supersedes all previous listings in their entirety when printed annually in the SB 8-75 Series. Disposition instructions have been issued on all previously suspended materiel (see Appendix B).

1-5. ARMY ANNUAL INFLUENZA VIRUS VACCINE PROGRAM

a. The USAMMA is the Inventory Control Point for the Army for the Influenza Virus Vaccine, an Acquisition Advice Code (AAC) A item. The DSCP contracts with vaccine manufacturers, acquires the flu vaccine, and distributes it to activities based on the priorities submitted on requests by the USAMMA. The USAMMA collects the requirements and follows all requisitions until they are filled.

b. NSNs change yearly for the flu vaccine. It is essential that the current year's NSNs be used in the requisitioning process. NSNs requisitioned must coincide with NSNs previously submitted for requirements. If a change is required, notify the USAMMA Quality Control Integration Branch (MCMR-MMB-R) at DSN 343-2045/301-619-2045 or email usammafluvaccine@amedd.army.mil for assistance.

1-6. COMPLAINTS ON MEDICAL MATERIEL (SF 380 - Reporting and Processing Medical Materiel Complaints/Quality Improvement Report)

a. The medical materiel complaint is the customer's way of letting "the system" know there is a quality deficiency with a medical product. Deficiencies should be submitted on standard and non-standard items. The SF 380 is also the vehicle for submitting Safe Medical Device incidents. Examples of discrepancies that should be reported on the SF 380 are:

- (1) Wrong or deficient labeling;
- (2) Foreign or particulate matter in liquids and solids;
- (3) Imperfectly manufactured items that are off-color, off-taste, and off-odor;
- (4) Suspected subpotency or superpotency;
- (5) Defective devices;
- (6) Pinholes in tubing, and/or
- (7) Faulty calibrations.

b. The SF 380 should be used to report quality problems involving non-standard as well as standard items (including all medical equipment). Most SF 380s are properly filled out, but the following problem areas are frequently seen:

- (1) Each SF 380 must be numbered in the "NUMBER" block (below the date in the upper right corner) in the following order:
DODAAC/Julian Date/Serial Number.

Example: WK4FV1/3031/A001

- (2) The serial number should begin with A001 and run consecutively.
Example: A001, A002, A003, etc.

(3) Use of an Alpha "A" in the first position of the serial number will distinguish materiel quality complaints from Report of Discrepancy (ROD).

c. All quality complaints should be submitted on the SF 380 to DSCP through the supporting installation medical supply account. Submit information copies of all such complaints to:

Commander, USAMMA
ATTN: MCMR-MMB-R
1423 Sultan Dr., Suite 100
Fort Detrick MD 21702-5001

d. Questions concerning the SF 380 process may be clarified by consulting:

- Army Regulation (AR) 40-61 (Medical Logistics Policies and Procedures), dated 25 Jan 95, Chapter 3, para 3-70 through 3-72,
- The local Medical Supply Officer, or
- Commander, Defense Supply Center Philadelphia
ATTN: DSCP-MBP
700 Robbins Ave
Philadelphia PA 19111-5092
Telephone DSN 444-2891/215-737-2891

e. A completed sample of the SF 380 is shown in Appendix C. The correct address for mailing the SF 380 is:

Defense Supply Center Philadelphia
ATTN: DSCP-MBP (SF 380 Medical Materiel Complaints)
700 Robbins Ave.
Philadelphia PA 19111-5092

f. An interactive SF 380 (see example in Appendix C) is available for direct submission to DSCP on the USAMMA Internet at **www.usamma.army.mil**. Note: Make a copy of the SF 380 for your records before you submit to DSCP. All activities are encouraged to utilize the on-line SF-380. It is faster, more efficient, and provides simultaneous electronic filing.

g. After normal duty hours, contact DSCP's Emergency Supply Operations Center (ESOC) at 215-737-2112, DSN 444-2112, Option 1, for assistance regarding medical emergency actions (Type I complaint) if needed. SF-380s may be TELEFAXed to the center at Commercial 215-737-2666 or DSN 444-2666.

1-7. SAFE MEDICAL DEVICE ACT (SMDA) OF 1990**a. References:**

- (1) AR 40-61, Chapter 3, Section XI, para 3-70-3-72
 - (2) AR 40-68 (Quality Assurance Administration), Chapter 3, para 3-5 - 3-7
 - (3) FDA Regulatory Procedures Manual
- (Website: WWW.FDA.GOV.ORA/COMPLIANCE_REF)

b. Effective 28 November 1992, all Medical Treatment Facilities (MTFs) are required to report incidents that reasonably suggest there is a probability that a medical device has caused or contributed to the death, serious injury, or serious illness of a patient.

c. The SF 380 and Form 3500A (MEDWATCH, FDA Medical Products Reporting Program) will continue to be used in submitting the incidents. Under the existing DOD/FDA Medical Materiel Complaint Reporting Program, a copy of each SF 380 that satisfies the reporting requirements of the SMDA is furnished by DSCP to the FDA.

d. The use of the SF 380 is not limited to devices, but includes pharmaceuticals. All activities should continue to submit medical materiel complaints IAW AR 40-61, Section XI, Para 3-70 thru 3-72, meeting the definitions of:

(1) Type I - A supply or equipment item that has been determined by use or testing to be harmful or defective to the extent that the use has caused or may cause illness or death.

(2) Type II - Materiel other than equipment, that is suspected of being harmful, defective, deteriorated, or otherwise unsuitable for use.

(3) Type III - Equipment that is determined to be unsatisfactory because of malfunction, design, workmanship or performance.

e. The Joint Readiness Clinical Advisory Board,(JRCAB), Fort Detrick, MD, and the DSCP will continue to adjudicate Type I, II, and III complaints in concert with the FDA and manufacturers to ensure compliance with the SMDA and the existing DOD/FDA agreement.

f. The medical materiel logistics officer who is responsible for submission of medical materiel complaints must coordinate with the quality assurance and risk management officers, IAW AR 40-68, Chapter 3, para 3-5.e.

g. A medical device is an article that is:

“(1) Recognized in the Official National Formulary or the US Pharmacopoeia, or any supplements.

“(2) Intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment or prevention of disease, in man or other animals.

“(3) Intended to affect the structure or any function of the body of man/animal, and which does not achieve its principal intended purposes through chemical action within

or on the body of man/animal and which is not dependent upon being metabolized for the achievement of any of its principal-intended purposes.

“(4) Examples include: anesthesia machines, defibrillator, pacemakers, hemo-dialysis machines, heart-valve catheters, thermometers, patient restraints, contact lenses, hearing aids, blood-glucose monitors, x-ray machines, tampons, ventilators, wheelchairs, infusion pumps, etc.”

h. Penalties involving medical devices are addressed in the *FDA Enforcement Manual*, August 1997. In part, it states:

“... The Safe Medical Devices Act of 1990 allows the Food and Drug Administration (FDA) to impose civil money penalties against both companies and individuals for most, but not all, violations of the Federal Food, Drug, and Cosmetic Act applicable to devices [21 U.S.C. '333(f), see App I]. The FDA can impose the penalty administratively. It does not need the approval of the U.S. Department of Justice or an Order from a federal district court.”

i. A serious injury or serious illness:

(1) Is life threatening;

(2) Results in permanent impairment of a body function or permanent damage to a body structure; or

(3) Necessitates immediate medical or surgical intervention to preclude permanent impairment of a body function or permanent damage to a body structure.

j. For further information on this topic, call MCMR-MMB-R, DSN 343-2045 or 301-619-2045.

1-8. SUBMITTING REPORTS OF DISCREPANCY (SF 364) AND REPORTING AND PROCESSING MEDICAL MATERIEL COMPLAINTS/QUALITY IMPROVEMENT REPORT (SF 380)

a. All SF 364 discrepancies should be forwarded to:

Commander, Defense Supply Center Philadelphia
ATTN: DSCP-MRCM (SF 364 ROD)
700 Robbins Ave.
Philadelphia, PA 19111-5092

For assistance call DSN 444-8419 or 215-737-8419/Telefax ext. 8005.

b. All SF 380 complaints should be forwarded to:

Commander, Defense Supply Center Philadelphia
ATTN: DSCP-MBP (SF 380 Medical Materiel Complaints)
700 Robbins Ave
Philadelphia PA 19111-5092

For assistance call: DSN 444-2891 or 215-737-2891/Telefax extension 2081.

c. An interactive SF 380 (see example in Appendix C) is available for direct submission to DSCP on the USAMMA Internet at

www.armymedicine.army.mil/usamma.

Note: Make a copy of the SF 380 for your records before you submit to DSCP. All activities are encouraged to utilize the on-line SF-380. It is faster, more efficient, and provides simultaneous electronic filing.

d. After normal duty hours, contact DSCP's Emergency Supply Operations Center (ESOC) at 215-737-2112 or DSN 444-2112, for:

- Assistance regarding medical emergency actions (Type I complaint) if needed,
- or
- SF-380s may be telefaxed to the center at 215-737-2666 / DSN 444-2666.

1-9. SHELF-LIFE MARKING DISCREPANCIES - POLICIES/GUIDANCE

a. To minimize confusion at medical activities regarding the disposition of medical materiel with discrepant shelf-life markings, a shelf-life marking discrepancy is defined as:

(1) A Type I or Type II Shelf-Life Item which is not marked with an expiration date, or

(2) An Estimated Storage Life (ESL) item which is marked with an expiration date (should have date of manufacture).

NOTE: Locally procured medical materiel (i.e., AAC "L" NSNs or Management Control Numbers [MCNs]) may be procured from various manufacturers that may have different stability data. Activities utilizing locally procured medical materiel will follow the shelf-life markings placed on the package by the manufacturer regardless of the shelf-life code reflected in the FED LOG, UDR, and AR 702-18, *Quality Control Depot Serviceability Standards, Appendix M, Medical Supplies*. The shelf-life data for AAC "L" NSNs in the FED LOG and UDR is representative of only one of many possible sources.

b. Table 1-1 provides guidance for determining if materiel has a discrepant shelf-life marking.

<u>Table 1-1. Guidance for Materiel with Discrepant Shelf Life Markings</u>			
<u>SHELF-LIFE MARKINGS</u>	<u>REPORTED AS TYPE I</u>	<u>REPORTED AS TYPE II</u>	<u>REPORTED AS ESTIMATED ESL</u>
If Expiration Date Markings Are on Package:	Utilize Materiel	Utilize Materiel	REPORT TO USAMMA and Utilize Until Expiration Date
If NO Expiration Date Markings Are on Package:	Suspend Materiel & Report to USAMMA	Suspend Materiel & Report to USAMMA	Apply Appendix M Codes DLAR 4155.73 / AR 702-18. If not found in Appendix M, call product manufacturer

1-10. DRUG ENFORCEMENT ADMINISTRATION (DEA) BIENNIAL CONTROLLED SUBSTANCE INVENTORY

a. The Controlled Substances Act (21 USC 801 to end) requires that each registrant of the DEA conducts total inventory of all controlled substances once every two years and maintains this inventory for two years. Army regulations greatly exceed this requirement, but the inventory conducted to meet the DEA requirement must be identified and maintained on file for DEA should they request a formal review.

b. The DEA has granted an exception to all Medical Department Activities (MEDDACs), Medical Centers (MEDCENs), and supported activities of the Department of the Army that follow inventory procedures outlined in AR 40-2 (Army Medical Treatment Facilities General Administration) and AR 40-61.

c. Activities will continue to conduct and maintain inventories according to Army regulations. This information is the authority for activities to disregard DEA notices to conduct special biennial inventories. Authorized users for purchase of controlled substances through DSCP are currently listed in Table 1-2 below.

d. Appendix D contains the Listing Of Controlled Substances With Assigned National Stock Numbers.

1-11. EXCESS EQUIPMENT MANAGEMENT PROGRAM

a. The USAMMA CRM manages the Excess Equipment Management Program (EEMP) for the USAMEDCOM. The goals of the EEMP are to:

(1) Eliminate excess medical materiel: Any materiel on-hand and no longer required to satisfy any mission requirement should be considered as excess. Excess materiel must be:

- (a) Consumables in condition code "A"
- (b) Equipment that is serviceable or economically repairable

(2) Ensure timely and cost effective identification of excess equipment.

(3) Manage excess materiel as a displaced resource that consumes resources and detracts from primary mission accomplishment.

(4) Aggressively report and advertise excess materiel to:

- (a) Enhance asset redistribution and use
- (b) Reduce disposal requirements

b. The EEMP applies to ARNG, U. S. Army Reserve (USAR), and all AMEDD activities.

1-12. REPORTABLE AND NONREPORTABLE EXCESS MATERIELS

a. The IMSA/MEDLOG Bn/USAMMCE will report excess materiel through the source of supply. To determine what is excess, the reporting activity must compare current, on-hand materiel with active acquisitions and requirements. The TAMMIS/DMLSS is an automated tool for assisting in this process and recommends materiel to be considered as excess.

(1) The USAMMA must approve all lateral transfers of equipment greater than the MEDCASE high dollar threshold.

(2) Equipment less than the MEDCASE high-dollar threshold can be laterally transferred without the USAMMA's approval.

b. Reportable nonexpendable or expendable excess materiel can fall into one of the following categories:

(1) Nonexpendable

(a) Medical equipment with a line item value that is consistent with current MEDCASE high dollar value threshold.

(b) Serviceable nonstandard medical equipment with a line item dollar value of \$2,500 or above.

(c) Regulated medical items identified with Acquisition Advice Code (AAC) "A" in the AMDF or FEDLOG. This includes medical equipment sets (MESs) listed in the SB 8-75 series or critical aeromedical evacuation equipment, such as patient monitors, defibrillators, pulse oximeters, and suction pressure apparatuses.

(d) Medical materiel with recoverability codes "D", "K", or "L" regardless of the condition code.

(e) Equipment possessing electrical characteristics unique to a command (220 volts, 50 hertz (HZ)).

(f) Equipment (audiovisual, radioactive, or telecommunications) requiring special disposal procedures.

(g) Automated data processing equipment (ADPE)

(2) Expendable and durable excess medical materiel

(a) Standard or nonstandard with a line item value of \$500 or more

(b) Repair parts with a purchase cost of \$100 or more

(c) Compressed gas cylinders (see AR 700-68/DLAR 4145.25/NAVSUPINST 4440.128C/MCO 10330.2C/AFR 67-12)

(d) Aeromedical Evacuation materiel: This materiel could include litters and mattresses, pillows, blankets, litter straps, and patient restraints.

c. The IMSA/MEDLOG Bn/USAMMCE must dispose of or destroy excess materiel not meeting the criteria above. Destruction or disposal can be completed through the use of:

(1) Government awarded pharmaceutical return contracts

(2) Contracts with other DoD medical facilities

(3) Contracts with DVA

(4) Other Government Agencies (National Institute of Health and Public Health Services)

(5) Government awarded disposal contracts

(6) Supporting Defense Reutilization and Marketing Office (DRMO)

d. The IMSA/MEDLOG Bn/USAMMCE will transfer the excess materiel at no cost to the receiving activity. The shipping cost will be borne by the losing activity.

e. Nonreportable excess materiel follows:

- (1) Nonexpendable
 - (a) Uneconomically repairable equipment with no recoverability code
 - (b) Equipment where the manufacturer no longer exists
 - (c) Equipment that lacks a model or part number
 - (d) Equipment that is no longer made or has exceeded its life expectancy (TB MED 7 or manufacturer literature)
 - (e) Equipment with a condition code "F"
- (2) Expendable and durable
 - (a) Materiel with an expiration date of 3 months or less
 - (b) Refrigerated and freezer items
 - (c) Veterinary items
- (3) Miscellaneous materiel
 - (a) Medical books and scientific journals (see AR 40-2): Volumes containing official AMEDD history will be sent to

Director, Center of Military History
ATTN: DAHM-HM
Washington DC 20314-0200

In OCONUS, MTOE units should turn in obsolete, unserviceable excess medical books to the supporting medical facilities with the appropriate MACOM/Command Surgeon approval.

- (b) Radioactive materiel (see AR 385-11)
- (c) Flags and guidons (see AR 840-10)

1-13. REPORTING EXCESS

a. The IMSA/MEDLOG Bn/USAMMCE must report any reportable excess materiel monthly in the form of a manual or automated report. The AR 725-50 and the AMEDDPAS manual prescribe the codes for the automated report.

b. The RMC/MSCs will establish manual reporting procedures for non-expendable and expendable excess materiel within their command. The USAMMA will establish manual reporting procedures for the U.S. Army Reserve Command (USARC), ARNG, CONUS, and OCONUS activities not supported by an RMC.

(1) Examples of manual reporting procedures for nonexpendable materiel follow:

(a) For regulated medical items to include MES, include the set control code, estimated dollar value or shortages, and a statement of the set's condition. Aeromedical evacuation materiel and equipment is reported per procedures in AR 40-538 / Department of the Navy Bureau of Medicine and Surgery Instruction (BUMEDINST) 6700.2B/AFR 167-5.

(b) For equipment requiring special disposal procedures, report through the commodities NICP or the responsible governing agency.

(2) The RMC/MSCs will establish manual reporting procedures for expendable materiel. One category of expendable materiel requiring specific reporting is compressed gas cylinders. These cylinders should be reported for turn-in by using the NSN of an unserviceable (empty) cylinder.

c. The AMEDD TDA activities will use AMEDDPAS to report nonexpendable equipment. The MTOE units will follow guidance from either their MACOM or the USAMMA when using the Standard Property Book System - Redesign. The MTOE can only generate excess nonexpendable equipment through a change of the MTOE authorization document, fielding plans, and/or deployment/contingency.

(1) The Property Book Officer (PBO), when using AMEDDPAS will establish excess property records for reportable excess equipment. These records must be established before the first AMEDDPAS cycle run of each month. The AMEDDPAS captures, categorizes, and combines the excess property records into a consolidated excess equipment report during the first cycle run. This report is provided to the USAMMA for advertising on their website. The USAMMA coordinates the report of excess equipment worldwide for redistribution.

(2) Automation equipment requires specific automated reporting procedures (see AR 25-1). The AMEDD activities will establish an Automation Resources Management Systems account with the Defense Automation Resources Management Program to report excess automation equipment per DoD 7950.1M.

d. The RMC/MSC will require the following information on manual or automated excess reports:

- (1) Nomenclature, make and model number
- (2) NSN, if assigned
- (3) Date placed in service
- (4) Quantity
- (5) Line item dollar value
- (6) Condition code
- (7) Local point of contact

1-14. ADVERTISING EXCESS

a. The RMC/MSC will establish advertising procedures within their health care boundaries for excess equipment and materiel. The RMC/MSC will consolidate and screen all excess reports from their supporting activities. The RMC/MSC will satisfy any requirement within the command during the screening process.

b. The RMC/MSCs will advertise excess materiel distributed throughout the command for no longer than 15 calendar days. If an organization outside of the RMC/MSC command boundaries requests an item on the advertised excess list, the RMC/MSC must request an exception to the redistribution priority scheme from the USAMMA. Lateral transfer procedures will apply (see AR 710-2). After the 15-day period, RMC/MSC will submit the consolidated excess materiel report to the USAMMA.

c. The USAMMA will consolidate the excess reports from the RMC/MSCs. The consolidated excess report will be distributed worldwide for advertisement purposes via message format and the USAMMA's home page. After the 30-day advertisement period, the IMSA/MEDLOG Bn/USAMMCE can process the unclaimed, unwanted equipment or materiel through DRMO.

1-15. REDISTRIBUTING EXCESS

a. The USAMMA manages Army-wide excess equipment / materiel redistribution. The USAMMA follows the sequence below to redistribute assets.

- (1) USAMEDCOM
- (2) Other MACOMs
- (3) DoD activities
- (4) Other Federal agencies
- (5) Local redevelopment authority
- (6) DRMO

b. The losing activity will:

- (1) Notify the gaining activity of the transfer arrangements.
- (2) Complete all necessary documentation per AR 710-2 to facilitate the transfer.
- (3) Ensure that appropriate maintenance personnel technically inspect the equipment to be transferred. A DA Form 2407 will be completed and sent with the equipment.
- (4) Ensure equipment is properly packed, crated and shipped per AR 746-1. The following must accompany the shipped equipment:
 - (a) Supporting supplies (expendables) and accessories
 - (b) Repair parts and listing
 - (c) Operator and technical manuals and manufacturer literature
 - (d) The AMEDDPAS/TAMMIS/DMLSS or manual maintenance history/records, to include the DA Form 2407
- (5) Receive a signed copy of the completed lateral transfer document.
- (6) Notify the Resource Management Office to have the Line Item Number (LIN) deleted from the TDA, if applicable.
- (7) Delete the property record.
- (8) Maintain the lateral transfer documentation for two years.

c. The gaining activity will:

- (1) Notify the USAMMA of the requirement for excess equipment/materiel.
- (2) Arrange the transfer with losing activity's point of contact.
- (3) Upon receipt of the excess equipment:
 - (a) Inspect transferred equipment for damage and resolve discrepancies with the losing activity. If improper packaging is suspected, notify the USAMMA.
 - (b) Sign and return a copy of the lateral transfer document to the losing activity within 3 days.

- (4) Establish a property book record within 3 days of receipt.
- (5) Submit DA Form 2028 (Recommended Changes to Publications and Blank Forms) to their Resource Management Office to add the LIN to the TDA, if applicable.
- (6) Maintain accountability for the transferred equipment throughout its life cycle.

1-16. QUARTERLY EXCESS REPORT TO THE USAMMA

The RMC/MSCs will report the excess equipment/materiel redistributed through the EEMP to the USAMMA on a quarterly basis. This consolidated excess report is due no later than the 20th of January, April, July, and October of each year. Figure 1-1 shows the proper format for the RMC/MSC consolidated excess report.

<u>QUARTERLY REDISTRIBUTED EXCESS EQUIPMENT/MATERIEL REPORT</u>	
Date Prepared _____	
Value of reported excess equipment	\$ _____
Value of redistributed excess equipment	\$ _____
Distribution of excess equipment/materiel	
Within the RMC/MSC	\$ _____
Outside the RMC/MSC	\$ _____
Through DRMO to Other Activities	\$ _____
To Department of Labor, state, or local facilities	\$ _____
To USAR or ARNG	\$ _____
Value of redistributed excess equipment equal to or greater than current MEDCASE high dollar value	\$ _____
Value of redistributed excess equipment not advertised	\$ _____
Value of excess equipment turned in to DRMO not listed on excess report	\$ _____
Value of excess equipment turned in to DRMO and listed on excess report	\$ _____
Total dollar amount of excess equipment turned in to DRMO	\$ _____

Figure 1-1. Format of the Quarterly Distributed Excess Equipment/Materiel Report

1-17. WEB-ACCESSIBLE CUSTOMER RELATIONSHIP MANAGEMENT DIVISION PRODUCTS

The following CRM products are available on the USAMMA website at **www.usamma.army.mil**

- (1) Subscribe to Receive QC Messages
On the USAMMA'S Home Page under "**What's New**", select **Subscribe to QC Messages** to register and receive messages as they issue via email.

(2) DOD-MMQC MESSAGES

On the USAMMA Home Page Side Bar, select **QC Messages**. Choose from a variety of search options to find the recall or information bulletin needed. Available for search and view on this hot button are:

- DOD-MMQC Messages
- MMI Messages (Army)
- Anthrax Vaccine Messages
- Flu Vaccine Messages
- SLEP Messages

By clicking on any of the above options, then identifying specific message (e.g., DOD-MMQC-00-1080 or subject, etc.) or range of messages (e.g., for all messages issued in CY 2000, input "00"), a listing of messages is displayed with message number and subject. Simply select the appropriate message number, and a full display of the issued message will be available for viewing and downloading in its entirety.

(3) DOD SF 380

Included on the USAMMA's Home Page to assist our customers in filing form SF 380-- Medical Materiel Complaint, this site offers an Information Paper, Regulatory References, Guidance for Completing the Form, and the ON-LINE FORM itself. By filling out the form on-line, simultaneous filing is generated to the DSCP and the USAMMA.

(4) ARMY MEDICAL EXCESS DISTRIBUTION

Located under the "**Excess**" hot button, this site enables the search capability for our on-line customers. Search by selecting:

- National Stock Number
- Document Number
- Nomenclature
- Manufacturer
- Model

(5) ARMY INFLUENZA VACCINE PROGRAM

Located under the "**Vaccines**" hot button, this site provides our customers access to the following flu vaccine information:

- Information Paper, Current Influenza Virus Vaccine
- Information Paper, Handling Instructions for Flu Vaccine Shipment
- Army Flu Vaccine Messages - Please note appropriate year.
- Army Flu Vaccine Request

➤ DLA Distribution Standard System (DSS0 Materiel Release Order (MRO) Tracking System:

This allows customers the ability to access shipping status of the flu vaccine by inputting corresponding document number.

- Current Army Flu Vaccine Requirements
- Flu Vaccine Packing Protocol

(6) INFORMATION PAPERS

The following Information Papers, provided under the "**Information Management**" hot button, were prepared by MMB-R personnel relative to MMB-R responsibilities:

- DOD-MMQC Messages
- Medical Materiel Complaints
- Army Annual Influenza Vaccine Program

2003 INDEX - SB 8-75-S3

By Order of the Secretary of the Army:

ERIC K. SHINSEKI
General, United States Army
Chief of Staff

Official:

JOEL B. HUDSON
Administrative Assistant to the
Secretary of the Army

Distribution:

To be distributed in accordance with initial distribution number (IDN) 340016, requirements for SB 8-75 Series.
